

AIRWORTHINESS ADVICE NOTICE

TYPE AFFECTED: ASW 27.

SUBJECT: Miscellaneous airworthiness information.

BACKGROUND: This AN records airworthiness information which is useful to know.
Copies of Technical Notes may be obtained from the GFA Secretariat.

APPROVED MODIFICATIONS:

Schleicher ASW-27 Technical Note No. 2 describes the possibility of optional integral water tanks in the wings instead of water bags.

Schleicher ASW-27 Technical Note No 7 describes the optional installation of a fin water ballast tank.

Schleicher ASW-27 Technical Note No 8 describes the optional installation of -

- (a) Electric power by solar cells installed on top of the fuselage behind the canopy.
- (b) Gate valves for water ballast in the fuselage instead of in the wings.
- (c) Use of "lightweight" parts in the fuselage.
- (d) The in-flight back-rest position adjustment replaced by a lighter system adjustable before take-off.

Each of the optional modifications in TN No 8 can be performed independently of each other.
