CANCELLATION OF AIRWORTHINESS DIRECTIVE.

AD-527 (ISSUE 1)

AD-527 was issued on 02 Feb 2000 in response to Casa AD/GEN/78 which was raised following a fuel contamination issue concerning Avgas 100/130 from the Mobil refinery at Altona Vic.

This fuel contamination problem no longer exists and CASA has therefore cancelled AD/GEN/78,79,80 & 81. Accordingly the GFA AD-527 is also cancelled, with effect immediately.

Any copies of AD-527 in your files may be removed & destroyed. Alternatively the AD may be retained in the file but should be marked or stamped "**CANCELLED**".
